

Elevating communities through empowering individuals' independence and self-reliance.

2022 has been Transcend International's first year in operation and we are thrilled to be joining an engaged community seeking to increase access to quality education and digital and financial inclusion. From the beginning, we have been excited to measure and report our impact. This sheet will serve as a brief overview of what we have accomplished this year.

At our first annual charity gala, we raised over

\$2.0M

to help minimize the digital divide

This money will go toward researching

**community solutions
digital ecosystems**

&

best practices

In 2022, we launched our podcast

Transcending Conversations is a hub for everyday listeners to further understand and help solve longstanding issues related to accessing quality education and improving digital literacy. We provide industry expertise, engaging stories, and data-driven solutions in hopes of inspiring action thus facilitating real change in the communities we live in and love.

In 2023 we look forward to:

- Building out our board
- Launching a formal search for a new Executive Director
- Hosting our second annual charity gala
- Deploying over \$2M to minimize the digital divide
- Producing Season 2 of the Transcending Conversations podcast
- Forming new partnerships with engaged community members and organizations.
